### Additional Information

- Supported web browsers and operating systems are those that are being actively tested by the MNLARS team
- JavaScript and Cookies must be enabled for all web browsers
- If using a browser other than the supported desktop browser, MNLARS and ESupport may not work properly
- Supported web browsers without a version identified should be understood to be the most recent fully patched version of that browser.
- Limited support will be provided for versions of supported web browsers that were released within the last 12 months.
